

Industry Icon Nomination Criteria

Recognizing excellence in leadership for economic growth in the Houston Port Region.

With a mission of growing the regional economy, over the past 33 years, the Economic Alliance has met our charge through economic development supporting the petrochemical sector, transportation and logistics development, workforce development, public policy advocacy, and quality of life projects. The Houston Port Region is home to the world's largest petrochemical complex and the nation's #1 exporting port. A region comprising 16% of the states GDP. Almost 80% of the expansion or new project we work on are in the petrochemical industry and from the American Chemistry Council we know that almost 7 indirect jobs are created for every 1 in the chemical industry; a higher ratio than any other economic sector.

With that in mind, we feel it is entirely appropriate to honor a member from this driving economic industry annually who has shown vision, leadership and a true heart for the petrochemical industry in this region. The ***"Industry Icon Award"*** will be given out annually at the Gulf Coast Industry Forum.

Businesses and individuals who are members of the Economic Alliance Houston Port Region are encouraged to nominate individuals who stand out as outstanding leaders in the Houston Port Region, and who work to make the region globally competitive and significant, while working at the local level with our communities to enhance the region's quality of life.

Those submitting nominations should consider the vision, leadership, and impact of the nominee and include a recommendation letter describing those qualities or examples of his or her leadership.

Applications must be submitted by June 29, 2019 to chad@allianceportregion.com or by mail to: Economic Alliance Houston Port Region, Attn: I.I.A. Nomination, 203 Ivy Avenue, Deer Park, TX 77536

Award will be presented at the *Gulf Coast Industry Forum* on September 19th.
